

Overhead Conveyor Systems Compatible with Meyn

Rodon
INTERNATIONAL BV

Rodon International B.V. is a Dutch based company. With a team of enthusiastic employees we have more than 30 years of experience in the poultry processing spare parts industry. Therefore we have become a reliable worldwide partner for this industry.

Our experience and knowledge of equipment enables us to adapt and customize parts to react to market needs and your specific demands. The wide and extensive range of OEM compatible parts, competitive pricing and high standards makes Rodon International a trusted partner in the business.

Rodon International is the one stop shop for poultry processing spare parts.

As quality matters, our synthetic overhead conveyor parts are manufactured under our strict quality control. With their smooth surface and contours with no brand names and production marks, our click trolleys are easier to clean and have extreme low bacteria adhesion. It's not just a click trolley. It's an improved double click trolley with two locking mechanisms to prevent spontaneous release and insure continuous and trouble free operation. It is used in combination with overhead conveyor chain produced by RUD Kette to generate optimal performance.

Rodon International is the exclusive distributor of RUD Kette overhead conveyor chain for the poultry industry. RUD Kette is one of the global leading manufacturers of high quality overhead conveyor chain with its production facility in Germany.

To minimize your production downtime we can deliver many of our products directly from stock anywhere in the world. Products are continuously being developed and improved.

Material knowledge and modern production equipment in combination with the problem solving capabilities of our employees, continuously results in new opportunities. Rodon International is not only supplier of poultry spare parts but an active partner in your business.

It's our pleasure to serve you in all your spare part requirements.
Please feel free to contact our head office or one of our regional business agents.
